

Jellyfish is a single tool to manage your suppliers and orders. Stay connected to your suppliers in real-time.

Ordering

- Order from all your suppliers at the same time, even if your supplier is not on Jellyfish.
- Add items to the “Cart” in Jellyfish and send all of your orders straight to your reps with a single button push. Each of your reps will only see their portion of the order.
- Discover new items or suppliers in the item searches.
- Time/date stamps and status updates increase accuracy, efficiency and add accountability to the ordering process for both the buyer and the rep.
- Manage your cash flow with a running order total by distributor and a grand total spend so that you can meet minimum spends while staying within your budget.
- Use your order history to negotiate better pricing with your suppliers.
- Build your orders from the inventory you just counted.
- Use the in-app messaging so all of your work communication is saved.

Inventory

- No more printing spreadsheets (Save \$\$ on paper and time).
- Reduce your physical inventory time by an average of 75%.
- All counts are automatically extended in the app.
- Increased accuracy and efficiency.
- Barcode scanning using your phone’s camera or a bluetooth scanner.

Administrative

- Completely free for you and you can add any staff members to the app.
- Staff management (including purchasing restrictions).
- Manage multiple sites, each with their own site catalog and staff.
- Reduce your administrative workload so you can spend more time with your customers generating revenue.

Other

- Apps for Apple and Android with web-based on Desktop.
- Integration with accounting and POS systems.

Common Concerns and Objections

How is this different from the other ordering systems on the market?

It works with all suppliers and is non-proprietary
We are not a buyers co-op

Is this an accounting system?

No, Jellyfish does not do accounting. We are a specialty order and supplier management solution. We integrate with accounting systems.

Do I still negotiate my pricing directly with my suppliers?

Yes, all negotiating happens between you and your supplier. Once you negotiate your best price, the supplier puts it into your order guide in Jellyfish.

Can I buy from any supplier or just your approved suppliers?

You can buy from any supplier in the world. We don’t limit your options.

Do I pay in Jellyfish for the items I buy?

Invoicing is done by your supplier. Just like it always has been.
